

INTRACEUTICALS OXYGEN FACIAL INFUSION AT THE BIMASENA SPA

The Bimasena Spa introduces a new treatment **The Intraceuticals Oxygen Facial Infusion** with *hyperbaric* oxygen technology. This anti ageing facial infusion incorporates science and technology with extensive research in Australia. The Intraceuticals Topical Hyperbaric Oxygen System delivers therapeutic grade oxygen under hyperbaric pressure to infuse hydrophilically active serums into the deeper layers of the skin. This method initializes osmotic hydration deep within the skin and delivers specific mixture of hydrators, essential vitamins, botanicals and antioxidants and amino peptides.

The Intraceuticals Oxygen Facial Infusion is widely celebrated by professionals from market skin care and is used by Plastic Surgeons, Dermatologists, Med Spas, Hotel and Resorts Spas in the United States. It is also very popular among Hollywood celebrities as it produces a significant improvement in the appearance of *skin tone, fine lines, pigmentation issues* and *wrinkles* and provides an instant visible lift for immediate results.

In Indonesia **The Intraceuticals Oxygen Facial Infusion** has been in the market for a year and it is now available at **The Bimasena Spa**.

The Intraceuticals Oxygen Facial Infusion is a 30 minutes treatment which infuses serum containing 95% *Hyaluronic acid, vitamin A, C, and E, green tea and other anti oxidant, amino peptides* and *nano hydrators* to the skin through oxygen that works with topical *hyperbaric* pressure, allowing serum and oxygen to be delivered to the epidermis reaching fundamental layers and assisting tissue with its natural process of rejuvenation. The serum combined with **Intraceuticals Topical Hyperbaric Oxygen** technology regenerates new cells, elastin and collagen immediately.

Range of Intraceuticals Oxygen Facial Infusions:

Rejuvenation Facial Infusion :

An Intraceuticals Oxygen Facial Infusion which reduces fine lines and blemishes, rejuvenate the skin and makes it radiant and fresh. It promotes natural collagen and elastin production improving skin texture. The face will be smooth, clarified, nourished and hydrated.

The Rejuvenation Infusion Treatment is available at The Bimasena Spa at Rp. 650.000++/30 minutes

Opulence Brightening Facial Infusion:

An Intraceuticals Oxygen Facial Infusion treatment which helps balance uneven skin pigmentation and hydrates the skin. The face will look brighter and more radiant.

The Opulence Brightening Infusion treatment is available at The Bimasena Spa at Rp. 650.000++/30 minutes

Atoxylene Facial Infusion:

An Intraceuticals Oxygen Facial Infusion treatment, a natural alternative to anti-wrinkles injection, which functions to reduce expression lines, makes eye contour more defined and lips plumped. Repeat infusions are recommended for the first six weeks for maximum benefits.

The Atoxylene Infusion treatment is available at The Bimasena Spa at Rp. 650.000++/30 minutes

The Intraceuticals Oxygen Facial Infusion is suitable for all skin types and provides results that are instant. A series of six treatments, one treatment each week, is recommended and are reactivated in between treatments with Intraceuticals Support Products for maximum results.
